

➤ Not only biodegradable, these Eco-Cleaners contain live microbes which break down wastes and feed the soil.

➤ Our range of Bio-Fertilisers boosts the microbial activity of the soil and unlocks nutrients making them readily available.

➤ Our innovative inoculation techniques are patented in Australia and overseas.

Cal-Booster

BioTech Innovators

Biotechnology: The use of microbes or biological substances to perform specific industrial or manufacturing functions.

VRM produces high quality Bio-Tech formulations for water and soil remediation. Functions include: Odour Control, Compost Accelerants, Bio-Fertilisers, Waste Treatment, Organic Recycling, Eco-Cleaners. The leading manufacturer/distributor of EM (Effective Microorganisms) products in Australia, VRM holds patents in Australia and overseas for its innovative Microbial Balancing technology.

VRM's **Cal-Booster** takes the principals of microbial enhancement one step further. This formulation combines our microbial cultures in a Pre-Fermented mixture which specifically targets the release of Calcium in soils. The product is used as a non-alkali calcium uptake promotant and allows calcium uptake far in excess of what is contained in the mixture.

Cal-Booster

- **RAPID CALCIUM BOOST**
- **UNLOCKS CALCIUM IN SOILS**

APPLICATION RATES

	DOSE	FREQUENCY
INTENSIVE CROPS	10 Litres/Ha	Once per season
FRUIT CROPS	10-15 L/Ha	Once in early growth and once during fruiting
PASTURELAND	5 L/Ha	Once per season
