Chief Executive Officer
Vital Resource Management Pty Ltd
22 Reward Crescent
Bohl,
Queensland 4814

Good Morning,

I am sending you the enclosed book "Transition Farms" as a way of saying "thank you" for helping Australian farmers make a successful transition from conventional farming methods to ones that are ecologically friendly and sustainable.

"Transition Farms" tells the story of 18 Australian farmers who have made or are making the transition from conventional growing methods to ones that are more sustainable. I am sending copies of the book to those people and organizations that have contributed to this happening. When you read the book you will find that Vital Resource Management Pty Ltd is referred to most favourably by one or more of the farmers, who have been interviewed. Contact details for your company are provided on page 286. I am hoping that these testimonials will benefit your organization and the work you are doing.

The greatest benefits will come if we can get this book into the hands of as many Australians as possible and you could help do this by promoting the book on your website, in newsletters to your customers, displaying the book or just by talking about it. I would suggest you do this only after you read the book and are convinced that it offers tremendous value.

As I have interviewed the farmers whose stories are told in "Transition Farms" I have become incredibly excited by the information they have been prepared to share and I believe the book is going to provide a very valuable resource to farmers everywhere and will be of interest even to those who are not directly involved with farming but are interested in where their food comes from.

The book sells in hard copy for \$37 plus \$7.50 postage within Australia and is also available to download off the Internet for \$33. There is a discount for multiple copies ordered and I attach an order form should you wish to order additional copies.

Should you require any further information, please do not hesitate to contact me.

Yours sincerely,

Beverley Buckley
