

THE AUSTRALIAN
TECHNOLOGY
SHOWCASE

The targeted microbial formulations for nutrient transfer in agriculture developed by Vital Resource Management Pty Ltd have been accredited to the Australian Technology Showcase since 2008.

Australian
Technology
Showcase

The Showcase is a joint State and Federal Government program to promote leading-edge Australian technology Globally.

To become accredited to the Showcase this technology has demonstrated to an independent assessment panel that it is:

- Clearly innovative
- Scientifically credible
- Developed with significant local content
- Commercially attractive
- Demonstrably marketable and exportable
- Socially and environmentally beneficial

Proudly supported by

Queensland Government
