

- Not only biodegradable, these Eco-Cleaners contain live microbes which break down wastes and feed the soil.

- Our range of Bio-Fertilisers boosts the microbial activity of the soil and unlocks nutrients making them readily available.

- Our innovative inoculation techniques are patented in Australia and overseas.

VRM Group

VRM International Ltd

VRM Pty Ltd

Bio Start +

BioTech Innovators

Biotechnology: The use of microbes or biological substances to perform specific industrial or manufacturing functions.

VRM produces high quality Bio-Tech formulations for water and soil remediation. Functions include: Odour Control, Compost Accelerants, Bio- Fertilisers, Waste Treatment, Organic Recycling, Eco-Cleaners. The leading manufacturer/distributor of EM (Effective Microorganisms) products in Australia, VRM holds patents in Australia and overseas for its innovative Microbial Balancing technology.

VRM's Bio Start + is a probiotic growth enhancer combining the nutrient capacity of liquid kelp and the powerful beneficial action of friendly microbes. This combination produces a formulation which favours a rapid development of fermentative and rhizobial activity. For this reason the product is often used as a root growth stimulant.

Bio Start + will:

- BOOST MICROBIAL ACTIVITY IN YOUR SOIL
- PROMOTE ROOT GROWTH
- HELP CONTROL FUNGAL DISEASES

BIO START +

- Boost Microbial Activity
- Unlock Nutrients
- Promote Root Growth
- Control Fungal Diseases

Ingredients: VRM Fermented Base Culture, EM, PDM-7, Molasses, Kelp, Phosphoric Acid, Potassium Humate, Purified Water

Suggested Usage Rates
Dilute in water 1:10 minimum. Fine mist spray to leaves and ground.

Nitrogen 83.6 ppm as Nitrate
Phosphorous 2,660 ppm as Phosphate
Potassium 5,540 ppm as Humates
Plus live inoculant
